

Spadina Avenue

ASHWELL TO CORBOULD

PROJECT PURPOSE

This project incorporates the vision of a Neighbourhood Greenway as recommended in the Downtown Land Use and Development Plan (2010). Neighbourhood greenways are enhanced pedestrian and bicycle connections linking key activity nodes and residential neighbourhoods.

WHAT IS COMING

- Tree lined boulevards
- LED lighting
- Enhanced pedestrian connections
- Bicycle Facilities
- On-street parking changes

WORK DETAILS

Timeline

August 4 - October 2020

- approximately 530m of road reconstruction
- paving
- drainage
- street trees
- street lights
- curb
- sidewalk
- parking stalls
- grass boulevards

Access to Landing Facilities

People using the Landing facilities are encouraged to use the access points off of Corbould Street.

CHANGES

PARKING

The reduction in available on-street parking will be reduced by 50 stalls. The planned parking lot expansion adjacent to the Chilliwack Curling Club will create an overall net increase in available parking stalls.

DRIVEWAYS

If you are unable to turn left into your driveway because of the centre median, there will be three mid-block crossings through the median to permit u-turns.

PEDESTRIAN FACILITIES

Both sides of Spadina Avenue will be receiving new sidewalks as well as along the centre median. Three new crosswalks will be installed. A tree lined buffer between the sidewalk and the travel lane will enhance safety and comfort for pedestrians.
